

Breadway High School Agri Lept,

The West comes to Broadway

Broadway High School Broadway, Virginia Volume 29 When we think of the West, we think of high rocky mountains, cowboys on cattle drives, outlaws robbing banks and holding up stagecoaches, saloons with poker and dance hall girls, and shootouts on a deserted dusty street in some unknown town. Because of the outdoorsy macho image mention of the West invokes, western styles have become popular all over the world.

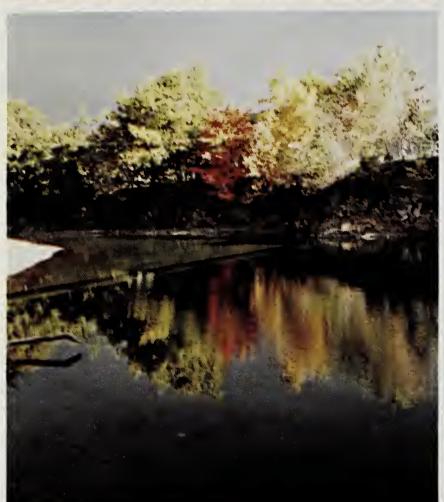

Jeans, hats, boots, and western shirts are status symbols for those who want to be fashionable. Broadway High School, not be left out on what is currently trendy, salutes the western lifestyle.

Colorado and aspens . . . Arizona and the saguaro cactus at sunset; the Rocky Mountains . . . Bergton in the fall . . . cows not eager for a cattle drive . . .

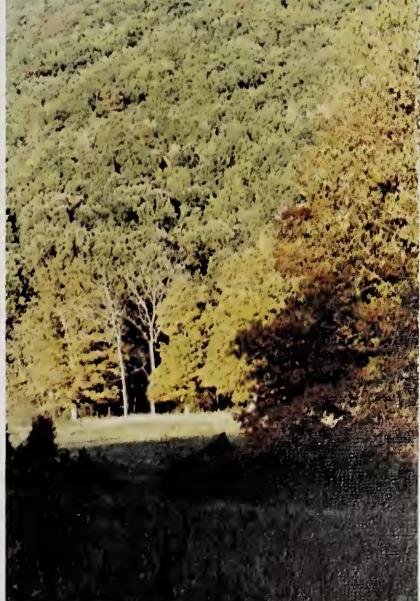

A deserted church at Lacey Spring . . . Shenandoah Valley fall foliage . . . a river leading somewhere.

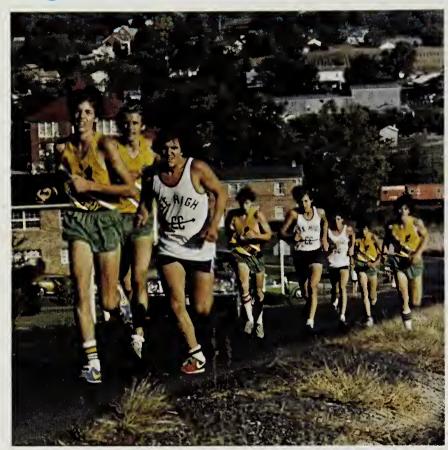

The West has its own "laid back" style ... so does Broadway High School.

The opera house in Central City, Colorado ... a colorful production of "A Midsummer Night's Dream"

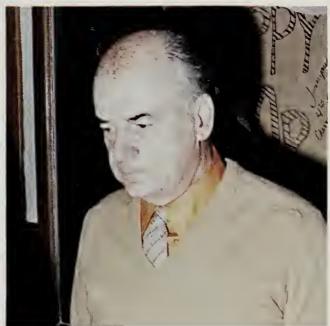

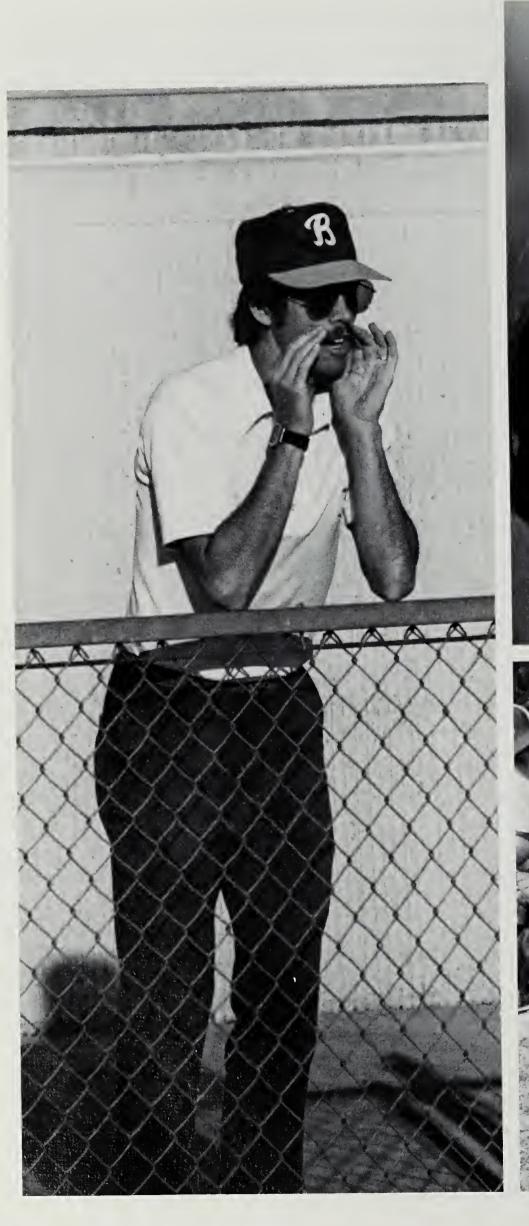

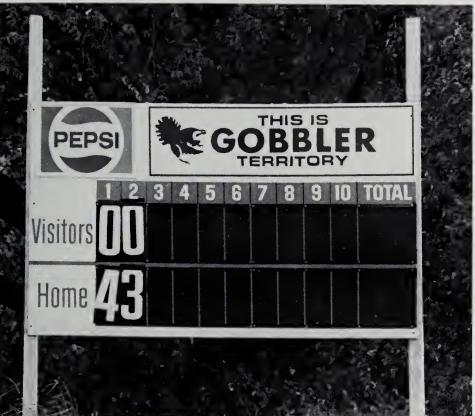

A visit from the Goodyear Blimp ... springtime in the Rockies and the Shenandoah Valley ... sports outings ...

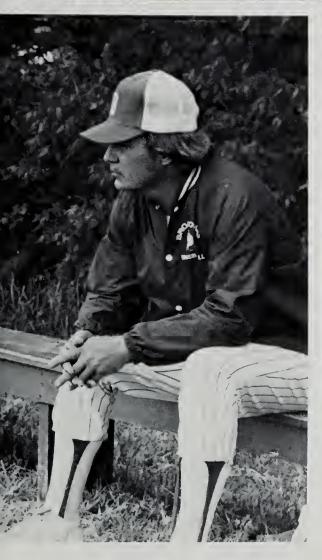

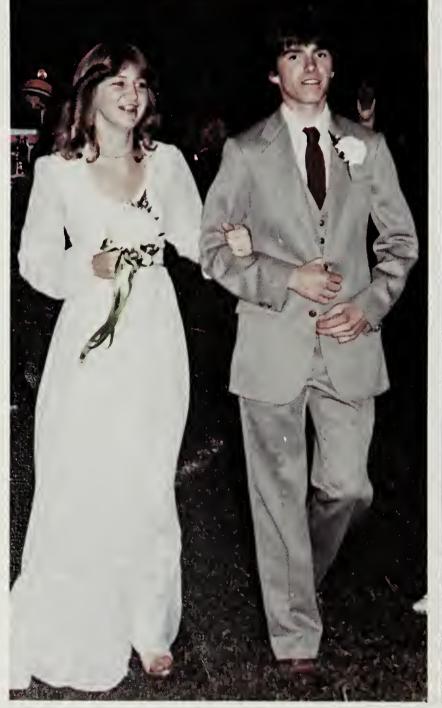

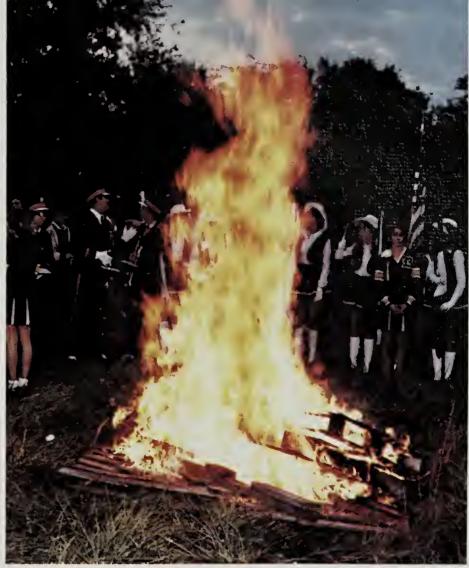

Rodeos, sports, parties, parades ...

Homecoming
Court ...

We Were"

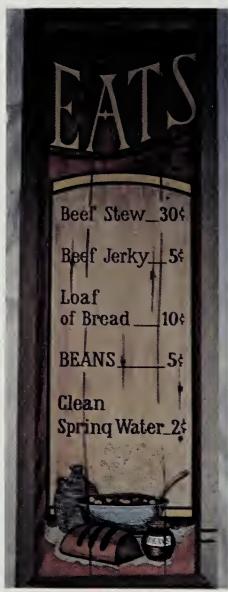

NO GUNS ALLOWED

East or West, life is best!

Just give us a home where . . .

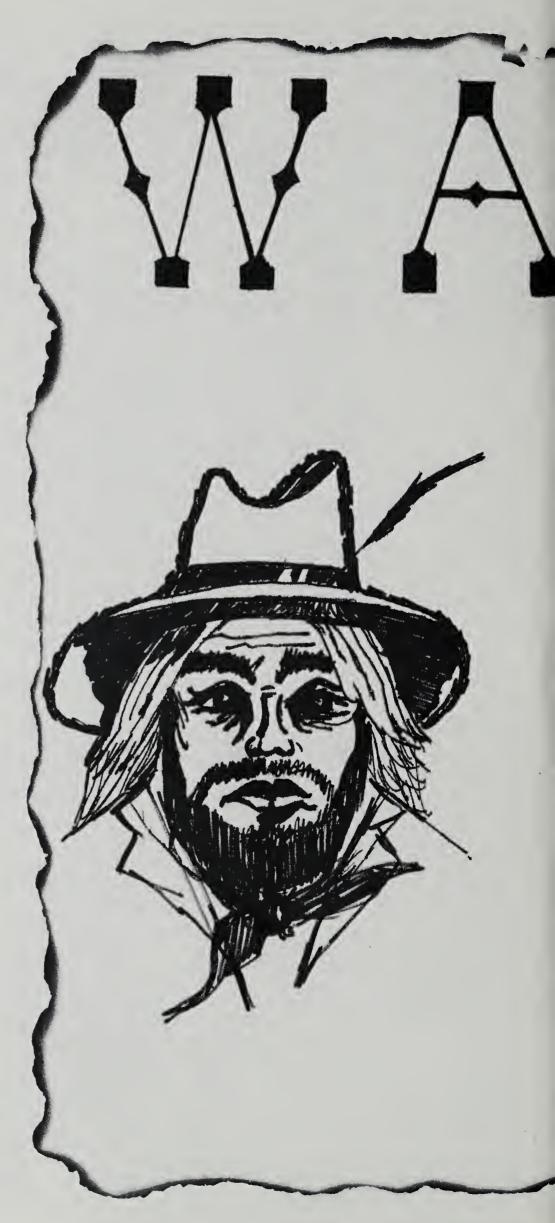

where the buffalo roam!

Earth Science incorporates the study of astronomy, geology, oceanography, and meteorology. The course examines the earth's characteristics, including weather, rocks and minerals, the earth's relationship to the universe, and the oceans and their characteristics.

Science

The Chemistry course is designed to develop the fundamental skills, major concepts and principles of chemistry, including formula writing, equation balancing, atomic theory and structure, chemical bonding, and the periodic system. There is a laboratory phase.

Carol Pietruszak

Ecology is the branch of biology that deals with the relationships living things have with each other and their environment. Ecologists study the activities and changes in the natural world to increase their understanding of the world and all its creatures.

Steve Gardner

Biology I is a generalized science course which deals with all living things. Studies include the genetics, interrelationships between organisms, botany, and zoology. The course is designed to give the student a basic look at all life sciences. It is recommended for most academic students. Biology II is a senior level course with a concentrated study of human physiology.

English

Grammar, vocabulary and composition are required for the first semester. A choice of literature courses is offered second semester. Betty Funkhouser, Donna Holmes, Nancy Vick, Alma Ritchie, Ann McGinn, Pam Holt, Ann Wright, and Mary Bert Hawkins are English teachers.

Library and Guidance

The library is open from 8:00 a.m. to 3:30 p.m. for student use. It contains approximately 10,000 volumes and subscribes to eighty magazines and periodicals as well as several newspapers. Numerous sets of reference books and audio visual materials are also available for student use. Patricia Phillips is librarian and Joan Campbell is library aide.

The guidance program provides a variety of services for students: individual and group counseling sessions, up-to-date occupational and educational information, referral services and area employment information. Patricia Brawley, Walter Eye, and Myra Yancy are guidance counselors, and Jean Dove is guidance aide.

SHENANDOAH WOOD STOVES INVITE YOU TO A HOUSE WARMING.

Your house can be toasty warm all winter with an efficient and economical wood stove from Shenandoah. Like the compact FP-S model, with glass doors, aluminized steel firebox with firebrick lining, thermostat control, removable variable-speed twin blowers, cast-iron grate with ash pan, double-wall construction and a big cooking surface on top. It's a Shenandoah, and it's a warm welcome home.
